

LAZER

HIGH PERFORMANCE LIGHTING

T28 Evolution

Our biggest unit in the updated T-range, the new T28 Evolution measures 46" in length and the performance more than matches its imposing size. With an unequalled all-round distribution of light, both in respect of long-range visibility combined with an incredible left/right spread, the T28 sets a new standard in off-road lighting that needs to be seen to be believed. When not in use, the lamp is no less eye-catching, with contemporary styling ensuring the lamp's design enhances the appearance of your vehicle.

HIGH PERFORMANCE LED DRIVING LAMPS

LAZER

HIGH PERFORMANCE LIGHTING

T28 EVOLUTION

- 28x high density 11W LEDs (premium 'bin')
- Seamless, low profile design facilitates installation
- Dynamic drive modulation optimises light output to maximise LED lifetime
- Ultra-reflective optics deliver 'Drive' beam pattern
- E-coat pre-treatment provides maximum corrosion resistance
- Lifetime guarantee on the 'Unbreakable' polycarbonate lens

TECHNICAL SPECIFICATIONS

E-MARK REF	N/A
